Women Obtain Mrs. Pinkham's Advice and Help.

She Has Guided Thousands to Health.—How Lydia E. Pinkham's Vegetable Compound Cured Mrs. Alice Berryhill.

It is a great satisfaction for a woman to feel that she can write to another telling her the most private details about her illness, and know that her letter will be seen by a woman only.

Many thousands of cases of female diseases come before Mrs. Pinkham every year, some personally, others by mail. Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge.

Mrs. Pinkham never violates the confidence of women, and every testimonial letter published is done so with the written consent or request of the writer, in order that other sick women may be benefited as she has been.

Mrs. Alice Berryhill, of 313 Boyce Street, Chattanooga, Tenn., writes:

Dear Mrs. Pinkham:—

"Three years ago life looked dark to me. I had ulceration and inflammation of the female organs and was in a serious condition. My health was completely broken down and the doctor told me that if I was not operated upon I would die within six months. I told him I would have no operation but would try Lydia E. Pinkham's Vegetable Compound. He tried to influence me against it but I sent for the medicine that same day and began to use it faithfully. Within five days I felt relief but was not entirely cured until I used it for some time.

"Your medicine is certainly fine. I have induced several friends and neighbors to take it and I know more than a dozen who had female troubles and who to-day are as well and strong as I am from using your Vegetable Compound."

Just as surely as Mrs. Berryhill was cured, will Lydia E. Pinkham's Vegetable Compound cure every woman suffering from any form of female ills.

If you are sick write Mrs. Pinkham for advice. It is free and always helpful.

Will Fight Against the Billboards

PROMOTION COMMITTEE IS TO WORK AGAINST OFFENSIVE BILLBOARDS IN THE CITY.

The Promotion Committee is going after the bill boards in the city. They have made up their minds that the bill boards must go and go they will when the next legislature comes around so it is hoped. Yesterday afternoon the Promotion Committee spent most of its time discussing this one matter. It was finally decided to unite with the Merchants' Association and see what could be done in the matter.

Secretary Wood of the Committee handed in his weekly report which was as follows:

Honolulu, August 2, 1906.

Chairman and Members of the Hawaii Promotion Committee.

Gentlemen: From inquiries made during the past week I am convinced that there is a larger number of visitors in the city at the present time than is usually the case during the summer season and I fully believe we may expect this showing to continue particularly as the people on the mainland are at last beginning to realize that our summers are so pleasant and the conditions here during that period are so delightful with the beautiful golden shower and the gorgeous poinciana regalia at their best. The gardens and grounds and hillside presenting such an attractive appearance.

Hawaii is not simply a wintering place but an all the year round resort without an equal the world over and it cannot be long before our hotel accommodation will be taxed to its utmost capacity from January to December. Even as matters are, conditions will be ripe for another and larger tourist hotel patterned after the Hotel Del Coronado or the Del Monte in California long before such a hotel could be built and properly equipped. Kona with its healing climate must also eventually attract a large and modern sanitarium.

The work thus far done by the Promotion Committee has been along right lines and will certainly continue to bring results but much more can and should be done for which I hope funds may soon be available.

By the next steamer from the Coast we should hear definitely whether the parties making up the Editorial excursion are planning for an eleven-day or a three-weeks stay, at which time the full committee on reception and entertainment should get together and definitely arrange their plans. In his letter dated July 15th, Mr. Edgar Johnson, secretary of the Editorial Association, says that they had agreed to leave the decision as to volcano trip in my hands, if I said go they would go. I replied immediately advising the trip and urging that inasmuch as all tickets would be good for four months that they determine to remain over one "Alameda" which would give them three weeks in the islands.

Among other members of the Editorial excursion will be Dr. Tape, of the famous Arrow Head Hot Springs, who is also connected with the Arrow Head Magazine.

The secretary of the American Civic Association writes acknowledging receipt of copy of Mr. Robinson's report, expressing at the same time his best wishes for the success of our work.

Miss Whitlock writes that she has again been selected to take charge of the information bureau for the Shriners headquarters at their conclave May 7th to 11th, 1907. A very large attendance is expected and efforts will again be renewed to bring some of the Shriners to Hawaii. We are promised at an early date a large list of addresses of members of the order who have stated positively that they purpose attending the 1907 conclave. To each of these special letters will be sent an attempt will be made to enlist the active co-operation of the steamship companies.

Our effort to induce the leading trans-continental railways to include a map of Hawaii on all of their large wall maps is meeting with success. Those railway companies already publishing such maps have accepted certain corrections suggested.

The San Pedro, Los Angeles and Salt Lake Railroad Company writes under date of July 17, that they will be very glad indeed to adopt our suggestion. Similar letters being received from the Chicago, Rock Island and Pacific Railway and Western Pacific Railway Co.

The San Francisco Call of August 2d or 3rd will have cuts of the editors of Hawaii's leading papers and an interesting story relating to the Editorial excursion, contributed by the paper's local correspondent. This will be but the beginning of many hundreds of columns of matter relating to this event.

Respectfully submitted,
H. P. WOOD,
Secretary.

KING OF CAMBODIA ON FRENCH WOMEN

THE KING OF CAMBODIA TALKS ON FRENCH WOMEN—SAYS THAT THEY TALK TOO MUCH AND INTERRUPT THEIR HUSBANDS—FURTHER SAYS THAT THEY WEAR ALOGETHER TOO MANY CLOTHES.

PARIS, July 25.—The chamberlain of the King of Cambodia, whose tour in France has been causing no small stir, has been writing a careful diary for publication when the royal party returns to Cambodia. By the help of an interpreter, several extracts have been translated which show how strangely modern life impresses the mind of a visitor from so distant a land.

The French people," writes the Lord Chamberlain, "talk a great deal, all talk together and women interrupt their husbands without fear of punishment. Very little respect is shown to people in high places, and even servants speak to them without prostrating themselves. But most people are rude in France, and the rudest are the men who make pictures. Many of these persons have not even refrained from threatening the sacred dances of the King with the machines they carry in boxes.

"Everybody wears far too many clothes, and they are worn all day long. Many wear numbers of unnecessary garments, especially the women. The women do not wear 'sampsots' (trousers), but instead wear many superfluous yards of different colored materials, placed one on top of the other and the husbands encase the bodies of their wives in cuirasses worn underneath their dresses.

"Men and women meet together in large companies, and quite without shame. They pray little, or not at all, but their temples are magnificent and built of stone."

After declaring that he would never allow his sacred dancers to come to the wicked French City, King Sisowath of Cambodia has re-lented and the strange little women have arrived and fill a whole house opposite the royal residence near the avenue du Bois de Bologne.

Princess Sumphady, the King's sister, has charge of the dancers. Jesters are included in the suite. It is their duty to make the little dancers laugh and otherwise enliven the tedium of their long hours of idleness, for these strange little women can neither read nor write, nor play games. They are like so many living dolls.

came fields to the beach home of the McBrydes at Lawai. Here an opportunity will be given to take a plunge in the surf and a Maui will be served under the coconut trees in true native style.

A moonlight trip to Koloa will end the day, where the Mauna Loa will take her passengers aboard and return to Honolulu.

Upon receipt of acceptance of the invitation by A. Gartley, care of the Hawaiian Electric Company, reservation will be made on the Mauna Loa.

It will be advisable to take stout boots and a rain coat as sudden showers are frequent in Wainiha Valley.
